

SMART 650 - FRY TOP

EFT665LC

CHROMED SMOOTH PLATE EL. TOP

TECHNICAL DATA:

Chromed plate	☐
Lined plate	☐
Smooth plate	☐
External dimensions - WxDxH (cm)	60x65x27
Total power (kW)	7,5

ADDITIONAL TECHNICAL DATA:

Worktop dimensions - WxDxH (cm)	59,5x55x1,2
Electric elements (kW)	7,5
Supply (N)	400V 3N 50/60Hz
Weight (kg)	61
Volume (m3)	0,3

The SMART 650 frytop range consists of models for contact cooking. Smooth, ribbed or mixed cooking surface, also chrome finished, with different modular width (half or full unit), with electric or gas heating, all with thermostatic temperature control. The worktop is AISI 304 18/10 stainless steel. The cooking plate has a thickness of 12 mm and the discharge of grease into a removable stainless steel basin. In full modules differentiated cooking can be done with two independently-heating electric burners/elements. Gas versions: stainless steel burners with self-stabilizing flame and thermostatic temperature control. Piezo-electric burner ignition.

Electric versions: armoured stainless steel electric heating elements; thermostatic temperature control.
